SIGNIFICANT OPERATIONAL EXPERIENCE IN INFRASTRUCTURE SECTOR

KEY STRENGTHS

SIPL has over 30 years of experience in infrastructure development. The company's infra projects includes Sealdah fly-over in Kolkata, Moolchand fly-over & Indraprastha underbridge in Delhi, Durgapur expressway, cooling tower at Panipat, suspension bridge at Nepal etc.

COMPETITIVE BUSINESS

KEY CONCERNS

The company is involved in the construction of infrastructure projects. The company may face significant competition and margin pressures from its competitors depending on size, nature and complexity of the project and on the geographical region in which the project is to be executed. The failure to bid competitively may adversely affect its operations. Bidding high will mean it does not win contracts and bidding too low will mean incurring a loss, or operating at very thin margins.

INCREASING DEMAND OF MODERN TECHNOLOGY

The construction industry increasingly demands technical sophistication. The rapid and frequent technology changes can demand high level of capital expenditure.

FINANCING DIFFICULTIES

Financing has been a major problem across the infrastructure sectors. Long term funding has been a problem for banks as they borrow short but need to lend for long-term projects.

LAND ACQUISITION

Land is a pre-requisite for any infrastructure project. A number of projects witness delayed financial closure and postpone commencement of construction due to land acquisition problem. This delay can also impact the project viability.

A HIGHLY FRAGMENTED INDUSTRY WITH INCREASED SUBCONTRACTING

The construction industry in India is highly fragmented. Construction projects often materialize through a number of smaller contracts which mainly depend upon the size of the project and diversified nature of activities involved. As a result, subcontracting is a common phenomenon in the industry.

Business capacity

Construction	Location
Sealdah fly-over	Kolkata
125 m. high Cooling tower	Panipat
Cable suspension bridge	Nepal
Durgapur expressway (20 km.)	Kolkata
Water treatment plan (12000 m ³ /hr capacity)	Garden Reach, Kolkata

INFRASTRUCTURE INDUSTRY STRUCTURE AND DEVELOPMENT

GDP From Construction in India increased to 2413.76 INR Billion in the first quarter of 2018 from 2373.76 INR Billion in the fourth quarter of 2017. GDP From Construction in India averaged 2095.15 INR Billion from 2011 until 2018, reaching an all time high of 2413.76 INR Billion in the first quarter of 2018 and a record low of 1861.37 INR Billion in the third quarter of 2012. GDP From Construction in India is reported by the Central Statistical Organisation, India.

INDUSTRY SCENARIO:

The Indian real estate market is expected to touch US\$ 180 billion by 2020. Housing sector is expected to contribute around 11 per cent to India's GDP by 2020. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs. New housing launches across top seven cities in India increased 27 per cent year-on-year in January-March 2018. India is expected to witness an upward rise in the number of real estate deals in 2018, on the back of policy changes that have made the market more transparent. Sectors such as IT and, retail, consulting and e-commerce have registered high demand for office space in recent times. Office space demand in the country increased 23 per cent year-on-year in January-March 2018 with office space absorption at 11.4 million square feet during the quarter. Private equity inflows in office and IT/ITES real estate have grown 150 per cent between 2014 and 2017 backed by a strong attraction towards office sector. The Indian real estate sector has witnessed high growth in recent times with the rise in demand for office as well as residential spaces. Private equity investments in real estate are estimated to grow to US\$ 100 billion by 2026 with tier 1 and 2 cities being the prime beneficiaries. Private equity investments in Indian real estate increased 15 per cent year-on-year in January-March 2018 to Rs 16,530 crore (US\$ 2.56 billion). According to data released by Department of Industrial Policy and Promotion (DIPP), the construction development sector in India has received Foreign Direct Investment (FDI) equity inflows to the tune of US\$ 24.67 billion in the period April 2000-December 2017. The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies.

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. Foreign Direct Investment (FDI) received in Construction Development sector (townships, housing, built up infrastructure and construction development projects) from April 2000 to December 2017 stood at US\$ 24.67 billion, according to the Department of Industrial Policy and Promotion (DIPP). The logistics sector in India is expected to increase at a Compound Annual Growth Rate (CAGR) of 10.5 per cent, from US\$ 160 billion in 2017 to US\$ 215 billion by 2020. India has a requirement of investment worth Rs 50 trillion (US\$ 777.73 billion) in infrastructure by 2022 to have sustainable development in the country. India is witnessing significant interest from international investors in the infrastructure space. Some key investments in the sector are listed below. The Government of India is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport, prior to the general elections in 2019. The Government of India is taking every possible initiative to boost the infrastructure sector.

STATE OF THE COMPANY'S AFFAIRS

Pursuant to Sec 134 (3) (i) of the Companies Act, 2013 ('the Act') As we look forward to 2018, the macroeconomic environment is expected to continue to improve. The single-family housing sector pricing and sales continues to strengthen, albeit at a slow and inconsistent pace. These positive macroeconomic parameters could potentially provide a further boost to the strengthening Commercial Real Estate recovery.

Annexure – 1**SECRETARIAL AUDIT REPORT**

FOR THE FINANCIAL YEAR ENDED 31.03.2018

{Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014}

To
The Members,
Shelter Infra Projects Limited
Eternity Building DN-1, Sector - V, Salt Lake
Kolkata – 700 019
West Bengal

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Shelter Infra Projects Limited** having its Registered Office at Eternity Building DN-1, Sector - V, Salt Lake, Kolkata – 700 019 West Bengal (hereinafter called “the Company”). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on my verification of the Company’s books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended 31.03.2018 has complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter. We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 (‘SCRA’) and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 (‘SEBI Act’):-
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

- b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- c) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993;
- (v) The laws specifically applicable to the industry to which the Company belongs as identified by the management are

 5. Municipal Building Rules, 2007.

Wherever required, we have obtained the Management Representation about the compliance of laws, rules, and regulation and happening of events. The compliance of provisions of Corporate and other applicable laws, regulations, standards is the responsibility of management. My examination was limited to the verification of procedures on text laws.

I have also examined compliance with the applicable clauses of the following:

- i. Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India and notified by Ministry of Corporate Affairs.
- ii. Securities and Exchange Board of India (Listing Obligations & Disclosures Requirements) Regulations, 2015;

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

1. The Composition of Audit Committee, Nomination & Remuneration Committee and Stakeholders Relationship Committee of the Company is not duly constituted as per SEBI and Companies Act, 2013
2. Despite the fact that the Company has generally complied with the provisions, rules, regulations guidelines to some extent, it is felt that the compliance mechanisms systems, procedures need to be further strengthened in applicability of SS-1, SS-2, SEBI(LODR) Regulations, 2015 and Companies Act, 2013.
3. The Company was late in filing of few forms/returns during the year. Though the same were filed within the limits prescribed under Section 403 of the Companies Act, 2013.

We further report that

- A. The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- B. Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- C. None of the Directors in any meeting dissented on any resolution and hence there were no instances of recording any dissenting member's view in the Minutes.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

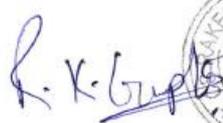

We further report that during the audit period there were no specific events/actions having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. referred to above.

We further report that during the audit period there were no instances of:

- Public/Rights/Preferential Issue of Shares/ Debentures/Sweat Equity, etc.
- Redemption/ Buy Back of Securities
- Major decisions taken by the members in pursuance of section 180 of the Companies Act, 2013

INDUSTRY STRUCTURE & DEVELOPMENTS

The Union Budget 2017-18 was announced with the theme of Transform, Energise and Clean India (TEC) was largely geared towards rural growth, infrastructure, and poverty alleviation, with a huge impetus to affordable housing. The thrust on affordable housing renews government's vision of 'Housing for All by 2022', giving a cheer for the housing segment. After a wait of several years, the government has finally awarded infrastructure status to the largely-neglected affordable housing, which is encouraging for developers infrastructure status will ensure easier access to institutional credit and help in reducing developers cost of borrowing affordable projects.

According infrastructure status will further simplify approval process for affordable projects, create clear guidelines and increase transparency in the segment. Such a market, which will further be made accountable through the Real Estate Regulatory Authority (RERA), could attract debt and pension funds to invest in the affordable housing segment. Moreover, this time period has extended from three years of approval to five years. We expect that these moves will definitely aid supply in the affordable segment by ensuring that a greater number of projects will come under the ambit of the scheme, which has remained largely under-penetrated till now, despite immense pent-up demand. For instance, households earning up to Rs 200,000 per annum and above poverty line itself accounts for almost half of the total demand for housing between 2017 and 2020.

From the above discussion, it is clear that to boost urban and rural infrastructure across the country, the government has initiated multiple measures to lift the infrastructure and construction sectors from the ongoing slowdown. The funds aimed at integrated development of urban infrastructure and services in rural areas and urban cities to boost allied sectors including construction material, steel and cement.

GLOBAL ECONOMY

According to the World economy outlook (WEO) around 120 economies, accounting for 3 quarters of World GDP, saw a pick up growth. The Global Output estimated to have grown by 3.7% in 2017. The IMF has raised its growth forecast for 2018 to 3.9% expecting the Global economy to continue to recover on the back of buoyant trade and investment.

Asia continues to be the main engine of the world's economy, accounting for more than 60% of Global Growth.

According to the International Monetary Fund (IMF), India is projected to grow at 7.4% of its GDP in 2018 as against China's 6.6% making it the fastest growing economy among emerging economies.

INDIAN ECONOMY

After registering GDP growth of over 7.7 per cent for FY 2017-18, the Indian economy has averaged 7.3 per cent for the period from 2014-15 to 2017-18, which is the highest among the major economies of the world. That this growth has been achieved in a milieu of lower inflation, improved current account balance and notable reduction in the fiscal deficit to GDP ratio makes it all the more creditable. In addition to the introduction of GST, the year also witnessed significant steps being undertaken towards resolution of problems associated with non-performing assets of the banks, further liberalization of FDI, etc., thus strengthening the momentum of reforms. After remaining in negative territory for a couple of years, growth of exports rebounded into positive one during 2016-17 and strengthened further in 2017-18.

Major reforms were undertaken over the past year. The transformational Goods and Services Tax (GST) was launched at the stroke of midnight on July 1, 2017. And the long-festering Twin Balance Sheet (TBS) problem was decisively addressed by sending the major stressed companies for resolution under the new Indian Bankruptcy Code and implementing a major recapitalization package to strengthen the public sector banks. As a result of these measures, the dissipating effects of earlier policy actions, and the export uplift from the global recovery, the economy began to accelerate in the second half of the year.

REAL ESTATE SECTOR

The year 2017-18 as we all know has set a new benchmark for the Indian real estate sector. The implementation of demonetization in November 2016 had the entire economy reeling until the first quarter of 2017 and the realty segment

was not pardoned either, with land sales reaching stagnation due to more involvement of cash transactions. However, this eventually helped reduce land prices thereby making the end products more affordable to the consumers. By April 2017, when the markets were looking to stabilize, RERA and GST were announced in succession which again caused some inertia due to confusion among buyers and developers alike, with both awaiting the final set of RERA notifications/legislation from their respective state regulatory bodies.

The Housing Sector contribution to the Indian GDP is expected to double to more than 11% by 2020 up from estimated 5-6% today. According to the report by CREDAI and JLL India, the Indian Real Estate Sector is projected to reach market size of \$180 billion by 2020.

OPPORTUNITIES AND THREATS

Viewed against the disruption, confusion and uncertainty of the past year, it would be easy to become despondent about the future of infrastructure around the world. Yet we see great opportunity and promise emerging. There is much to be excited about. Governments continue to demonstrate a strong desire and ambition to invest in infrastructure, both as a path to economic growth and as a way to hold back the rising tide of populism. New technologies and rapid innovation are creating new approaches, models and tools for infrastructure development and helping to bring down costs. The quest to identify new pricing and funding models offers the potential to unblock pipelines and unleash a new era of rapid development. And new perspectives on key issues such as sustainability, governance and investment are driving greater sophistication in many markets. A new dawn may be rising.

Coming convergence of real estate and infrastructure within the investment market — a trend that has been slow to materialize but become increasingly important in its impact. We also expected swifter action on the impact investing and credit enhancement fronts. Not surprisingly, therefore, there are a number of trends in this year's report that could be seen as a continuation of previous evolutions.

Governments continue to demonstrate a strong desire and ambition to invest in infrastructure, both as a path to economic growth and as a way to hold back the rising tide of populism. New technologies and rapid innovation are creating new approaches, models and tools for infrastructure development and helping to bring down costs. The quest to identify new pricing and funding models offers the potential to unblock pipelines and unleash a new era of rapid development. And new perspectives on key issues such as sustainability, governance and investment are driving greater sophistication in many markets. A new dawn may be rising.

We hope that this year's report inspires infrastructure participants to think progressively about the opportunities we face today and cautiously about the risks of tomorrow. We believe there is huge potential for great good to be unlocked. But, if we do not respond with vision and purpose, we may also be sowing the seeds of discord and division for future generations. The choice is ours.

Public Sector projects through Public Private Partnership will bring further opportunities. Ambitious project plans have been developed for various sectors to bridge the infrastructure gap. These measures have opened up various opportunities for private participation in the provision of infrastructure and services.

Long term market instability and uncertainty may damage the opportunities and prevent the expansion. Infrastructure financing has been a major problem particularly in the roads sector and banks must make changes to meet financing needs of road sector. Long-term funding has been a problem for banks as it has to borrow short-term to lend long-term projects. Funds are required and so is innovation.

OUTLOOK

In order to promote affordable housing, the government has made several efforts to create enabling environment and ecosystem. Towards such an end, the Government has granted infrastructure status to affordable housing which will enable these projects to avail the associated benefits such as lower borrowing rates, tax concessions and increased flow of foreign and private capital.

Considering the above future possibilities and policies Your Company is looking to acquire Infrastructure Company having credentials of Rs. 100 Crores. Acquisition may be either of full takeovers or merged it with your Company by creating SPV or strategic alliance and to incorporate various companies and LLP's or any other forms as permissible by law for execution of various housing and infrastructural projects in near future.

The Shares of the Company will be provided to the respective landowner/ Companies/ Trust as the case may be towards payment of consideration other than cash on the valuation as may be certified by the competent authority / empanel valuer of any nationalized Banks. Shares can be issued as consideration towards assignment value for relinquishing the development right of the property owned by a person of a Company or Company whatsoever in nature. Apart from the Consideration payable to the property owner by issuance of shares towards payment of consideration and or otherwise other than shares or other than cash.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has a satisfactory system of internal control corresponding with its size and the nature of its operations. These have been designed to provide reasonable assurance & accuracy with regard to recording & reporting and providing reliable financial and operational, information, complying with applicable statutes, safeguarding assets from unauthorized use or losses, executing transactions with proper authorization and ensuring compliance of corporate policies.

The Company has an Audit Committee, the details of which have been provided in the Corporate Governance Report. The Audit Committee reviews Audit Reports submitted by the Internal Auditors. Suggestions for improvement are considered and the Audit Committee follows up the implementation of the corrective steps. The Committee also meets the Company's Statutory Auditors to ascertain, inter alia, their views on the adequacy of internal control systems in the Company and keeps the Board of Directors informed of its major observations from time to time.

FINANCIAL PERFORMANCE & FUTURE PLANNING

During the year under review, the company has achieved a total turnover of Rs.319.36 lacs. The Profit/Loss after Tax for the year under review has been Rs.19.67 lacs, as compared to Rs. (0.24) lacs for the previous year.

Shelter Infra Projects Limited is confident that apart from the infrastructure job, real estate business particularly the residential projects will be a regular source for the company of cash inflow and profit. The company has also decided to hire different professional agencies having sufficient expertise in their respective field for making and marketing those real estate projects as proposed.

Thus the Company has decided to enter into the real estate development business directly by acquiring development right from the land lord/owner and procuring property at suitable location for raising house stalls, at an affordable price.

The Company has also decided for introduction of Special Purpose Vehicle (SPV) to implant such independent projects as subsidiary of the company, as the case may be.

Material developments in Human Resources / Industrial Relations front, including number of people employed.

The Industrial Relations scenario continued to be cordial. The Company regards its employees as a great asset and accords high priority to training and development of employees.

Number of employees as on March 31, 2018 was 18.

The information required pursuant to Section 197 of the Companies Act, 2013 ("the Act") read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 in respect of employees of the Company; need not to be disclosed as it is not applicable in respect of our company.

RISKS AND CONCERNS.

The company is involved in the construction of infrastructure projects. The company may face significant competition and margin pressures from its competitors depending on size, nature and complexity of the project and on the geographical region in which the project is to be executed. The failure to bid competitively may adversely affect its operations. Bidding high will mean it does not win contracts and bidding too low will mean incurring a loss, or operating at very thin margins.

HUMAN RESOURCES

Human Resources continued to be one of the biggest assets of the Company. The management has been paying special attention to various aspects like training, welfare and safety and thereby further strengthening the human resources. Relations with the employees remained cordial throughout the year.

CAUTIONARY STATEMENT

Statements in the Management Discussions and Analysis Report in regard to projections, estimates and expectation have been made in good faith. Many unforeseen factors may come into play and affect the actual results, which could be different from what the Directors envisage in terms of future performance and outlook. Market data and product information contained in this Report have been based on information gathered from various published and unpublished reports, and their accuracy, reliability and completeness cannot be assured.

Independent Auditor's Report to the Members of Shelter Infra Projects Limited

I. Report on the Indian Accounting Standards (IND AS) Financial Statements

We have audited the accompanying IND AS financial statements of **Shelter Infra Projects Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2018, the statement of profit and loss (including other comprehensive income), the statement of changes in Equity and the cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

II. Management's Responsibility for the Indian Accounting Standards (IND AS) Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these IND AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, the statement of changes in Equity and cash flows of the Company in accordance with the Accounting principles generally accepted in India, including the Indian Accounting Standards (IND AS) specified under section 133 of the Act, read with relevant rules issued there under. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of IND AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

III. Auditor's Responsibility

Our responsibility is to express an opinion on these IND AS financial statements based on our audit. We have taken into account the provisions of the Act, and the Rules made there under including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there-under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India (ICAI). Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the IND AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the IND AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the IND AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the IND AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the IND AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the IND AS financial statements.

Notes to the Financial Statements for the year ended March 31, 2018**1) COMPANY INFORMATION**

The Company is a public limited company domiciled in India and is listed on the Bombay Stock Exchange and Calcutta Stock Exchange.

2) 2.1 SIGNIFICANT ACCOUNTING POLICIES**2.1.1 Basis for preparation of accounts**

The accounts have been prepared in accordance with IND-AS and Disclosures thereon comply with requirements of Ind-AS, stipulations contained in Schedule-III (revised) as applicable under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules 2014, Companies (Indian Accounting Standards) Rules 2015 as amended from time to time, MSMED Act, 2006, other pronouncement of ICAI, provisions of the Companies Act and Rules and guidelines issued by SEBI as applicable.

Assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in revised Schedule-III to the Companies Act, 2013.

2.1.2 Use of Estimates

IND-AS enjoins management to make estimates and assumptions related to financial statements, that affect reported amount of assets, liabilities, revenue, expenses and contingent liabilities pertaining to the year. Actual result may differ from such estimates. Any revision in accounting estimates is recognized prospectively in the period of change and material revision, including its impact on financial statements, is reported in the notes to accounts in the year of incorporation of revision.

2.2 Recognition of Income and Expenses

- i) Value of work done up to progressive billing stage at the end of the accounting year and certified / accepted by the client within the said date is taken at the appropriate rate as per contract.
- ii) Value of work done up to progressive billable stage at the end of the accounting year but not certified /accepted by the client within the said date is taken at the appropriate rate as per contract and shown under the head "Work done but bills not raised".
- iii) Value of work done below the progressive billable stage is however valued at cost (material cost plus all other direct charges attributable to the portion of work done) and shown under the head "Work-in-Progress". Adjustments are made in case of any anticipated loss to complete a contract.
- iv) When work is completed beyond 20% of the total executable work, total estimated cost of the project is reviewed vis-a-vis total revenue receivable there from. Any loss accruable in this respect, pertaining to completion of the project is provided for.
- v) Arbitration claim/counter claim is accounted for on the basis of merit of the case in terms of advice of Legal Experts.

2.3 Property, Plants and Equipments

These tangible assets are held for use in construction, supply of goods or services or for administrative purposes. These are recognized and carried under cost model i.e. cost less accumulated depreciation and impairment loss, if any which is akin to recognition criteria under erstwhile GAAP.

- a) Cost includes freight, duties, taxes and other expenses directly incidental to acquisition, bringing the asset to the location and installation including site restoration up to the time when the asset is ready for intended use. Such Costs also include Borrowing Cost if the recognition criteria are met.
- b) When a major inspection/repair occurs, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. Any remaining carrying amount of the cost of previous inspection/repair is derecognized.
- c) Depreciation has been provided on straight line method in terms of expected life span of assets as referred to in Schedule – II of the Companies Act, 2013. In the following category of property, plant and equipment, the depreciation has been provided on the technical evaluation of the useful life which is different from the one specified in Schedule – II to the Companies Act, 2013.

Buildings	-	3 to 60 years
Plant and Machinery	-	3 to 12 years
Furniture and Fixtures	-	5 to 10 years
Office equipment	-	5 to 10 years
Vehicles	-	5 to 8 years

The residual value and useful life is reviewed annually and any deviation is accounted for as a change in estimate.

- d) During sales of fixed assets any profit earned/loss sustained towards excess/shortfall of sale value vis-à-vis carrying cost of assets is accounted for in statement of profit & loss.

2.4 **Investments Property**

Properties held to earn rentals or/and for capital appreciation but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes, are categorized as investment properties. These are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost shall also include borrowing cost if the recognition criteria are met. Said assets are depreciated on straight line basis based on expected life span of assets which is in accordance with Schedule II of Companies Act, 2013. Significant parts of the property are depreciated separately based on their specific useful lives. Any gain or loss on disposal of investment properties is recognized in profit or loss account.

Fair value of investments properties under each category are disclosed in the notes. Fair values are determined based on the evaluation performed by an accredited external independent valuer applying a recognized and accepted valuation model or estimation based on available sources of information from market.

Transfers to or from the investment property is made only when there is a change in use and the same is made at the carrying amount of investment Property.

2.5 **Intangible Assets**

a) Intangible Assets are initially recognized at :-

- 1) In case the assets are acquired separately then at cost.
- 2) In case the assets are acquired in a business combination then at fair value.
- 3) In case the assets are internally generated then at capitalized development cost subject to satisfaction of criteria of recognition (identifiability, control and future economic benefit) laid down from clause 11 to 17 of IND-AS38.

Following initial recognition intangible assets are carried at cost less any accumulated amortization and accumulated impairment loss.

- b) Intangible assets with finite useful life are assessed for impairment whenever there is an indication that the intangible assets may be impaired. Intangible assets with infinite useful life including goodwill are tested for impairment annually.

2.6. Impairment of Non-Financial Assets

- a) An asset is deemed impairable when recoverable value is less than its carrying cost and the difference between the two represents provisioning exigency.
- b) Recoverable value is the higher of the 'Value in Use' and fair value as reduced by cost of disposal.
- c) Test of impairment of PPE, investment in subsidiaries/associates/joint venture and goodwill are undertaken under Cash Generating Unit (CGU) concept. For Intangible Assets and Investment Properties it is undertaken in asset specific context.
- d) Test of impairment of assets are generally undertaken based on indication of impairment, if any, from external and internal sources of information outlined in para – 12 of Ind-AS-36.

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.7. Financial Instruments

(i) Financial Assets

Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost.

Subsequent Measurement

For purpose of subsequent measurement financial assets are classified in two broad categories:-

- Financial Assets at fair value
- Financial Assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss, or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost.

- **Business Model Test:** The Objective of the company's business model is to hold the financial asset to collect the contractual cash flows.
- **Cash Flow characteristics test :** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through OCI:-

- **Business Model Test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- **Cash flow characteristics Test :** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI.

Investment in associates, joint venture and subsidiaries

The company has accounted for its investment in subsidiaries, associates and joint venture at cost.

Impairment of financial assets

The company assesses impairment based on Expected Credit Losses (ECL) model at an amount equal to :-

- 12 Months expected credit losses, or
- Lifetime expected credit losses

Depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the company does not track the changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

(ii) Financial Liabilities

All financial liabilities are initially recognized at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified as measured at amortized cost or fair value through profit and loss (FVTPL). A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gain or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on de-recognized is also recognized in statement of profit and loss.

2.8. Fair Value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either :

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole :

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's Valuation Committee determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

2.9 **Inventories**

Inventories are valued at the lower of cost or net realizable value. Cost includes purchase price, duties, transport & handling costs and other costs directly attributable to the acquisition and bringing the inventories to their present location and condition.

The basis of determination of cost remains as follows :

- a) Raw material, Packing Material, Moving Weighted Average Basis.
- b) Stores & spares: at standard cost which approximates the cost.
- c) Work-in-progress: Cost of input plus overhead upto the stage of completion.
- d) Finished Goods: Cost of input plus appropriate overhead.

2.10. **Employee Benefits**

Liabilities in respect of employee benefits to employees are provided for as follows:

- a) Short term employee benefits
 - i) Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be incurred when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.
 - ii) ESI is provided on the basis of actual liability accrued and paid to authorities.

- b) Post Separation Employee Benefit Plan
- i) Defined Benefit Plan
- Gratuity Liability on the basis of actuarial valuation as per Ind-AS-19. Liability recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of each reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of defined benefit is determined by discounting the estimated future cash outflows by reference to market yield at the end of each reporting period on government bonds that have terms approximate to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.
 - Company contributes its share of contribution to Employees Provident Fund Scheme administered by a separate trust with its obligation to make good the shortfall, if any, in trust fund arising on account of difference between the return on investments of the trust and the interest rate on provident fund dues notified periodically by Central Government.
 - Actuarial gain/loss pertaining to I & II above and other components of re-measurement of net defined benefit liability (asset) are accounted for as OCI. All remaining components of costs are accounted for in statement of profit & loss.
- ii) Defined Contribution Plans :
- Liability for superannuation fund is provided on the basis of the premium paid to insurance company in respect of employees covered under Superannuation Fund Policy.

2.11. **Income Tax and Deferred Tax**

The liability of company on account of Income Tax is computed considering the provisions of the Income Tax Act, 1961.

Deferred tax is provided using balance sheet approach on temporary differences at the reporting date as difference between the tax base and the carrying amount of assets and liabilities. Deferred tax is recognized subject to the probability that taxable profit will be available against which the temporary differences can be reversed.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax assets are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries, and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilized.

2.12. **Provisions, Contingent Liability and Contingent Assets**

Disputed liabilities and claims against the company including claims raised by fiscal authorities (e.g. Sales Tax, Income Tax, Excise etc.) pending in appeal/court for which no reliable estimate can be made and or involves uncertainty of the outcome of the amount of the obligation or which are remotely poised for crystallization are not provided for in accounts but disclosed in notes to accounts.

However, present obligation as a result of past event with possibility of outflow of resources, when reliable estimation can be made of the amount of obligation, is recognized in accounts in terms of discounted value, if the time value of money is material using a current pre-tax rate that reflects the risk specific to the liability.

No contingent asset is recognized but disclosed by way of notes to accounts.

2.13. Operating Segments

The Chief Operational Decision Maker monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products/services.

- a) Segment revenue includes sales and other income directly identifiable with the segment including inter-segment revenue.
- b) Expenses that are directly identifiable with the segments are considered for determining the segment results. Expenses which relate to the Group as a whole and not allocable to segments are included under unallocable expenditure.
- c) Income which relates to the Group as a whole and not allocable to segments is included in unallocable income.
- d) Segment result includes margins on inter-segment and sales which are reduced in arriving at the profit before tax of the Group.
- e) Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

2.14. Earnings Per Share

Basic Earnings per share is calculated by dividing the total comprehensive income for the period attributable to equity shareholders by the number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit for the period attributed to equity shareholders and the number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.15. Borrowing Cost

Borrowing cost that are directly attributable to the acquisition, construction, or production of a qualifying asset are capitalized as a part of the cost of such asset till such time the asset is ready for its intended use or sale. Borrowing cost consists of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing cost are recognized as expense in the period in which they are incurred.

2.16. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
